QUESTIONS AND ANSWERS ("Q&A") SESSION AT THE THIRTY-SIXTH ANNUAL GENERAL MEETING ("36th AGM") OF THE COMPANY HELD ON FRIDAY, 22 MAY 2026 AT 10.00 A.M.

Q1 Rationale for the issuance of an additional 10% of new shares when there is a share buy-back of up to 10%?

A1 A share buy-back is when a company uses it own cash to buy back its shares from existing shareholders through the stock market when deemed appropriate. While the issuance of an additional 10% of new shares provides the Company with flexibility to raise funds promptly for working capital requirements, capital expenditure, investments, acquisitions or other corporate exercises without having to convene a separate general meeting to obtain shareholders' approval.
